Betreff: CE marking

Dear Sir,

Via our distributor and agent Gelisim Teknik in Turkey we received the request for a CE marking / statement on our Wavin AS product range.

The CE statement is always connected to CE marking on a product. Currently there is no normative basis or demand within Europe for a CE statement on Soil & Waste products overall, so therefore we are not allowed to advise a statement on this ourselves.

If harmonized standards will be set within Europe, all producers of this specific product will have to mark the products with the CE marking. At this moment this is not allowed.

We trust to have informed you,

With kind regards,
Wavin Overseas B.V.

Rolf Sterken
